DETAILED ACTION

1. This action is responsive to papers filed on March 20, 2006.

Response to Amendment

2. In response to applicant's amendment received on March 20, 2006, all requested changes to the claims have been entered. Claims 7-9 have been cancelled.

Allowable Subject Matter

3. Claims 1-6 and 10 are allowed.
4. The following is an examiner's statement of reasons for allowance:

As to claim 2 and previously stated in the office action mailed out on October 19, 2005, none of the prior art teach or fairly suggest a step of displaying correlation between edge roughness shapes of different line edges, in combination with the other limitations of claim 2, as discussed by the applicant in the Remarks, pages 8-11, filed on August 8, 2005. The prior art of Munesada discloses a circuit pattern inspection method, detecting edge point by a threshold method, obtaining a approximation line by least square and obtaining an edge roughness shape, but does not teach or fairly suggest a step of displaying correlation between edge roughness shapes of different line edges as disclosed in claim 2.

Art Unit: 2624

As to claim 10 and previously stated in the office action mailed out on March 7, 2005, none of the prior art teach or fairly suggests the limitation of selecting a candidate of a pattern forming process on said substrate as a cause of occurrence of roughness from said edge roughness shape obtained and displaying the candidate. However, Munesada discloses detecting edge points, approximating an edge line and obtaining an edge roughness shape he does not teach selecting and displaying a candidate for the cause of occurrence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
